-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed September 10, 2003 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Harby (U.S. Patent 2,052,623; issued September 1, 1936). Harby teaches a method of embossing a paper file folder (page 1, col. 2 line 11) between two contacting surfaces by placing the

Art Unit: 1732

file folder to be embossed between embossing rollers 18 and 19 (see Fig. 5) and applying pressure to the surfaces which in turn pushes the surfaces towards each other, thus, deforming the folder paper stock (page 1, col. 2, lines 30-48 and Fig. 4). The method of Harby creates a slip- resistant file folder meeting the limitations of claim 4. Although the purpose of Harby's method is to create a reinforced file folder and does not specifically disclose an intention to create a slip-resistant file folder, the rejection is proper. "Arguments that the alleged anticipatory prior art is nonanalogous art or teaches away from the invention or is not recognized as solving the problem solved by the claimed invention, [are] not germane to a rejection under section 102." *Twin Disc, Inc. v. United States*, 231 USPQ 417, 424 (Cl. Ct. 1986) (quoting *In re Self*, 671 F.2d 1344, 213 USPQ 1, 7 (CCPA 1982)).

### ***Conclusion***

All claims are rejected.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S Patent 6,938,549: Bullock teaches the method for making slip resistant file folders.

U.S. Patent 6,273,470: Bullock teaches slip resistant file folders.

U.S. Patent 2,062,436: Yawman teaches a file folder with a raised surface to help prevent dropping the folder.

U.S. Patent 5,769,311: Morita et al. teach an embossed paper cup to help prevent dropping the cup.
